

webwatch

In this issue Webwatch covers sites relating to sustainable sanitation.

Community-Led Total Sanitation

The CLTS website aims to be the global hub for CLTS providing practical information about the approach, CLTS in different countries, research papers, and relevant news and events.

<http://www.communityledtotal-sanitation.org/>

WSP – Water and Sanitation Program

WSP works to develop and promote sustainable solutions to the problems of inadequate sanitation. The website contains links to key WSP sanitation publications relating to sanitation marketing, scaling up of rural sanitation and the CLTS approach.

http://www.wsp.org/index.cfm?page=page_disp&pid=11409

GTZ – Ecological Sanitation

One of the main themes of GTZ is the concern with ecological sanitation as a means of closing the loop between sanitation and agriculture. The website presents the background, activities and results of this approach.

<http://www.gtz.de/en/themen/umwelt-infrastruktur/wasser/8524.htm>

ROSA – Resource-oriented Sanitation concepts for peri-urban areas in Africa

ROSA promotes resource-oriented sanitation concepts as a

route to sustainable and ecologically sound sanitation in order to meet the MDGs.

<http://rosa.boku.ac.at/>

Sustainable Sanitation Alliance (SuSanA)

SuSanA aims to contribute to the achievement of the MDGs by promoting sanitation systems which take into consideration all aspects of sustainability. Full details of this approach and its activities are available.

<http://www.susana.org/>

Eawag – Strategic Environmental Sanitation Planning (SESP)

Strategic planning for sustainable environmental sanitation is the focus area of the SESP thematic group. The website details the main approaches and related research.
