

Practical Action Publishing

OPEN ACCESS OPTIONS

Books

Find out about our Gold Open Access options for newly published books below.

We'd also love to hear from you if you are an author looking to change the status of your previously published book to Open Access. Do get in touch for discounted pricing and advice at publishinginfo@practicalaction.org.uk

Post acceptance, authors who have indicated an Open Access requirement will be asked to pay a Book Processing Charge (BPC). Funding for this may be available as part of the original research project or from an author's institution. Payment of the BPC ensures that a PDF of the title is freely available in perpetuity and in its final published form, from the moment of formal publication. The title will also be maintained as part of the scholarly record and benefit from inclusion in industry standard archival and preservation initiatives. This charge is dependent on the length of the book and calculated only once the text is finalized.

Books can be published under Creative Commons Attribution License (CC BY), Creative Commons Attribution-Non-Commercial License, Practical Action's own Open Access License (Non-Commercial, No Derivatives) or an All Rights Reserved copyright status. Practical Action Publishing will also ensure that a hard copy is available for purchase. Authors may also choose to pay for additional reflowable ebook formats to be produced in addition to the PDF. Practical Action Publishing will distribute these via popular channels such as Amazon, Apple and Mobi.

Author should note that all books published via Gold Open Access routes available with Practical Action Publishing will be subject to rigorous peer-review at both the proposal stage and when the manuscript is complete.

Book processing charges: Up to 50,000 words: \$12,000 | £6,000 | €9,000. Books which exceed this word count will be charged at the basic rate plus \$2,000 | £1,000 | €1,500 for every additional 20,000 words or part thereof. Please note that the quoted fees apply to books with a low level of complexity; higher charges will apply for a non-standard design template or for greater levels of design complexity, including photos and figures. Authors are responsible for the production of an index for their book, if the publishers consider this to be desirable.

Support our journal collections

With the support of our partners, we can ensure that our change-making journal articles from peer-reviewed journals *Waterlines*, *Enterprise*, *Development & Microfinance*, and *Food Chain*, are available for everyone, including researchers and practitioners from lower-resourced contexts or fields.

Supporting organisations or institutions can donate a small fee and gain

- Access to all articles published over the last 40 years
- Statistics and usage data to demonstrate which articles are most popular with their colleagues and students
- Their logo proudly featured on our website, and receive a 'knowledge sharing partner' badge for their own site
- A discounted Open Access rate for new book proposals submitted and subsequently published by Practical Action Publishing
