

**Practical Action Publishing puts affordable knowledge into the hands of people who need it most, whatever their location, in a language and format that suits them best.**

# WHY PUBLISH WITH US?

**Our resources become central to policy documents, news articles, and global definitions of terms; and are chosen as course texts, and technical manuals.**

Practical Action Publishing is an independent publishing company and an exclusive publisher and distributor for prominent international partners including the Sphere Association and Humanitarian Standards Partnership, Oxfam GB, WEDC, Latin America Bureau, INTRAC, NRI, SKAT and IDRC.

We also publish for many other international organizations and academic research institutions, and host important content from development practitioners and organizations on our platform [practicalactionpublishing.com](https://practicalactionpublishing.com).

In 2019 we took over Health Books International, sourcing vital medical textbooks at low cost for community health initiatives across the world.

External partnerships with over 250 organizations have been invaluable in building our collection of 2000+ books and 3000+ journal articles for 50 years.

We have worldwide distribution warehouses in the UK and US, with print-on-demand facilities in the UK, Europe, the US, Canada, Latin America, Australia and in Indian regional markets. In 2022, our resources reached 184 countries.

We have translated many of our resources into multiple languages. This ensures that changemaking knowledge is accessible and relevant to more communities and practitioners.

Our journal articles and books are available in digital formats as well as print, and are peer reviewed and produced according to professional publishing standards. We also offer bespoke online elibrary packages.

Practical Action Publishing innovates and responds to what change-makers need. Our books range from manuals to monographs; online, in print and open access formats.

They address today's pressing global challenges including agriculture and food, climate resilience, energy, water, sanitation and hygiene, social development, and construction and housing.

Our website platform, launched in 2020, is optimised for institutional use, as well as for individual customers worldwide.

It houses our entire collection of online resources (ebooks, journal articles and other resources), and showcases our complete catalogue of print books – all available to buy or download from this easy to navigate ecommerce platform.

Do you have an idea for a book that will benefit development practice or are you a practitioner whose knowledge can inform research and policy?

Is your organization looking to increase the reach and impact of its knowledge by hosting documents on our platform, or by gaining access to all our existing resources?

Find out all the ways to work with us at [practicalactionpublishing.com/publish-with-us](https://practicalactionpublishing.com/publish-with-us) or contact us to discuss further:
